

MAPLE SUGARING
EQUIPMENT

2018
CATALOGUE

The CDL way.
The power of expertise.

WORD OF WELCOME

High technology is becoming more and more present in agriculture in 2018, and maple production is no exception. The truth is, technology is something we can no longer do without.

CDL is proud to offer an affordable way for maple producers of all types—from tiny artisanal sugar shacks to high-volume operations—to successfully join the technological revolution.

We believe that new technology is the best way to ensure a smooth transfer of maple businesses to aspiring producers—and for you to secure the future of your sugar bush. Better technology not only generates more money, but improves the lives of producers and their families.

We at CDL want to help you at this important stage in the life of your business. We support and assist you with personalized advice tailored to what's important to you and your family and what's best for your maple business—that's our promise to you. Our CDL commitment again this year is to keep on bringing you the best equipment on the market and a standard of service never before attained in the industry.

In closing I'd like to thank all our customers, both personally and on behalf of all the owners. Thank you all for your trust and loyalty. I also wish to salute the remarkable work of CDL's employees, who day in, day out spare no effort to provide each and every one of our customers with the very best service.

Have a great sugar season in 2018!

THE HOBBY ZONE

A sugar shack—your sugar shack—is your pride and joy. Whether it's about fun, maintaining a wonderful tradition, replenishing your personal reserve, or sharing with family and friends, you want to keep it that way.

Amateur or small producer, CDL has what you need to make the next season as sweet as can be.

We're there for you to share our know-how and experience. It's what drives us to excel each and every day.

Top picks for 2018 from the experts at CDL.

Whether you tap 50
trees with buckets
or 1,000 with tubing,
CDL has what your
sugar bush needs.

3/16" clear *Signature* spout

VERSUS MULTI-FITTINGS

NEW

Original concept: Chuck Welch, NY

A family consisting of a man, a woman, and a small child are walking away from the camera through a snowy field. The man is wearing a brown jacket and blue jeans, the woman is wearing a brown coat and a blue hat, and the child is wearing a light blue snowsuit and a blue hat. They are walking towards a wooden building with a green roof, which is partially covered in snow. The background is a snowy forest with bare trees.

TUBING AND FITTINGS

BUCKETS AND ACCESSORIES

A story **OF FAMILY**

Maple production is a **family tradition** that is part of the cultural heritage. Outside the maple producer profession, know-how is handed down from generation to generation, a source of pride for local families.

Maple syrup production started before the arrival of the first Europeans. It's good to remember this period of time commemorated by our predecessors when members of a family hurry to harvest maple syrup out of love for their trees! Today, the **sugaring season** is synonymous with joy and sharing as everyone gathers around a well-stocked table **in the sugar shack**.

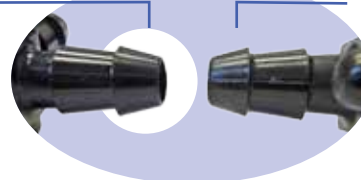

Such families are key to the development of maple production. **Their mission is to hand down a passion** and cultivate a lasting **family heritage**. Let's pay tribute to the thousands of families for whom maple syrup means work but mostly pride

MAXFLOW FITTINGS

The new line of 5/16" Maxflow fittings was specifically designed and developed for maple producers wanting to operate over 25 in-hg (high vacuum). These fittings enable a perfect seal with a vacuum level beyond 25 in-hg and offers the following advantages:

- No parting lines on the first barb.
- Precision moulding.
- Eliminates micro-leaks caused by molding lines.
- Better grip on the tubing.

MAXFLOW

Regular fitting

5/16" MAXFLOW SPOUTS

5/16" black spout
with barbs
66090516

\$0.25

We recommend the use of a 19/64" drill bit for tapping.

5/16" white spout
with barbs

17/64" blue spout
with barbs
66090513

\$0.25

We recommend the use of a 1/4" drill bit for tapping.

ACCORDING TO A STUDY FROM THE ACER CENTER

When comparing sap yield, the white Maxflow spout gave a **sap volume 7% higher** than the black Maxflow spout.

CONCLUSION OF THE STUDY

In the studied sugar bush, white spouts gave a higher volume of sap compared to the black spouts.

This increase, recorded in the last part of the season, would be related to the color of the spout and its thermal absorption properties.

**White spouts,
7% better performance**

3/16" gravity sap tubing setup

Ideal for maple producers using a gravity tubing system.

Ideal for sugar bushes without electricity.

Ideal for maple producers who do not want to use a vacuum system.

- > Increase your production.
- > Create a vacuum effect without a pump in the 3/16" tubing.
- > Better sap quality than with standard gravity systems.
- > As simple as using buckets, but with less work and better performance.

Have a better tracking by using different coloured spouts during tapping season.

SPOUTS

Signature SPOUTS

We recommend the use of the 5/16" drill bit for tapping with 5/16" Signature Spout.

Profession MAPLE PRODUCER

At last, it's spring! For maple syrup producers, the sugaring season means rolling up their sleeves to harvest maple water on their property. It's **year-round** work. Operating a sugar bush has never been leisurely. It's done in **forests** and requires constant facility maintenance and ongoing monitoring of maple tree quality and health. Fortunately, technology is now available to **help maple-producing families**.

To meet growing demand in the market, **maple producers** have developed unique expertise and technology to help them improve their production conditions and **quality of life**. By marrying tradition and innovation, the maple production industry has shown resourcefulness in the equipment used to optimize producer efficiency in line with **nature** and their ecosystem. From remote monitoring to pump systems and quality control tools, the **technology** that has come out of research will amaze you. Because we're maple producers too, we understand your passion and share your pride. Maple production is our vocation.

Minimum quantity: 10 000 units

ADVANTAGES OF 4 SEASONS 5/16" TUBING

- Unequaled translucency;
- Longest life expectancy on the market;
- Malleable in all temperatures;
- Resists falling trees, branches and freezing rain;
- No leakage on CDL fittings;
- Best warranty on the market.

PRECUT DROPS

Our precut drops will save you work in the preparation of your drops.

Completely clear for an optimal visibility.

Again, the unique plastic recipe with UV stabilisers and an established reputation is offered to optimize yield and durability.

Available in 36 and 40 inch length, and packaged in bundles of 100 units.

WHY CHOOSE A PRECISION TAPPER?

- > Repetitiveness.
- > Prevents oscillation.
- > Depth control.
- > Fail-safe mechanism.
- > Bit protection.
- > Angle adjustment.

ADVANTAGES

- > Reduces leakage due to perfect tap holes.
- > Reduces the chances of having to drill a 2nd time.
- > Reduces costs from leakage management.
- > General productivity increase: by improving the tapping quality you improve production.

COMMON PROBLEMS LINKED TO USING CONVENTIONAL DRILLS

- > Inconsistency.
- > Oval holes.
- > Holes too deep.
- > Operator errors.
- > Damaged bits.

RESULTS

- > Vacuum loss.
- > Decrease in production.
- > Increased labor costs.
- > Poor tree health.

Lighter
Better bit visibility
Installs and fits
most drill models
No more racing
(possibility of drilling up to 2 3/4")

LEAK FINDER

Revolutionary tool
specifically designed for
pumping stations
and **vacuum centrals.**

Finds leaks impossible to detect
with the human ear,
regardless of back ground noise,
the temperature or the season.

Identification of the leak
using a LED bar graphic
combined with
a sound signal.

Finds vacuum leaks:

- > Vacuum pumps
- > Reverse Osmosis
- > Tubing and valves
- > Cracks
- > Fitting joints
- > Extractors

Identification of the leak
using a LED bar graphic
combined with
a sound signal.

**SUPER
SPECIAL**

Leak finder kit

EXTRACTORS WITH SUBMERSIBLE PUMP

Perfect for
HIGH VACUUM

HORIZONTAL EXTRACTORS WITH SUBMERSIBLE PUMP TANK DESIGN

The specified measurement is the distance between the base of the extractor and the center of water entry.

Can be installed on a **tank**
or **on the ground**.

18" x 24"	2024ES	½ HP
18" x 36"	2024ES2	2 HP

Pressure gauge not included

Prices available upon request

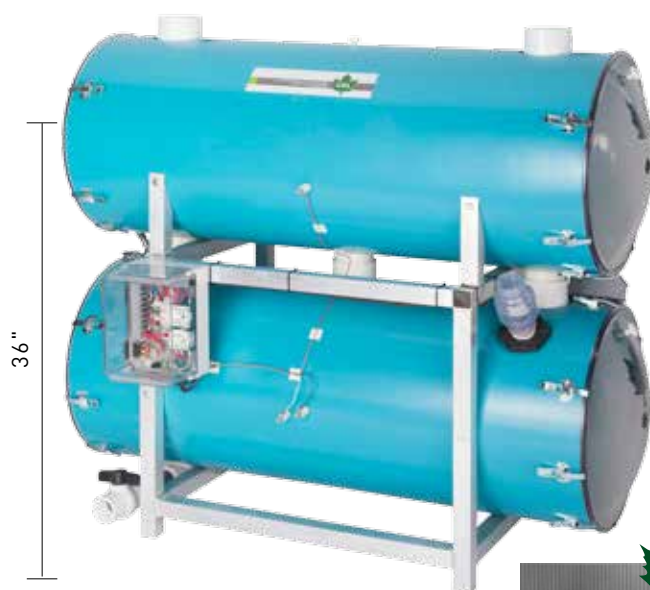

ADVANTAGES

- > No sap-return in the 5/16" tubing.
- > High quality submersible pump.
- > Can be installed on a tank to allow drainage by gravity during shutdown periods.
- > No air in the tubing system while extracting sap.
- > Solves the sap extraction problems caused by pumping at high vacuum.
- > No float, extremely reliable.

HORIZONTAL EXTRACTORS WITH SUBMERSIBLE PUMP

The specified measurement is the distance between the base of the extractor and the center of water entry.

	18" x 48"	204820ES	½ HP
	18" x 48"	204820ES2	2 HP

	18" x 60"	206020ES4	4 x 2 HP
A	Extractor grid kit	7200082A	48"
A	Extractor grid kit	7200083A	60"

Pressure gauge not included

Prices available upon request

ADVANTAGES

- > No sap-return in the 5/16" tubing.
- > High quality submersible pump.
- > No air in the tubing system while extracting sap.
- > Solves the sap extraction problems caused by pumping at high vacuum.
- > No float, extremely reliable.

A
Extractor grid

EXTRACTORS WITH SUBMERSIBLE PUMP

LOW HORIZONTAL EXTRACTORS

The specified measurement is the distance between the base of the extractor and the center of water entry.

ADVANTAGES

- > Very low (**only 24" from the ground**)
- > No sap-return in the 5/16".
- > High quality submersible pump.
- > No air in the tubing system while extracting sap.
- > Solves the sap extraction problems caused by pumping at high vacuum.

VERTICAL EXTRACTORS WITH SUBMERSIBLE PUMP

The specified measurement is the distance between the base of the extractor and the center of water entry.

ADVANTAGES

- > Opening on top for easy cleaning.
- > No sap-return in the 5/16" tubing.
- > High quality submersible pump.
- > No float, extremely reliable.
- > No air in the tubing system while extracting sap.
- > Solves the sap extraction problems caused by pumping at high vacuum.

	Without manifold	With manifold	
18" x 40"	2036ES	203608ES	½ HP

MOISTURE TRAPS AND VACUUM BOOSTER TANKS

MOISTURE TRAPS

Designed for high vacuum, to capture water particles suspended in the air that are not normally retained by conventional traps. In addition, these traps offer a protection for your pumps, much better than other models on the market.

VANE PUMPS L-SERIES (HIGH PERFORMANCE)

Available
from 1 hp
to 10 hp.

Single phase
and 3 phase
models
available.

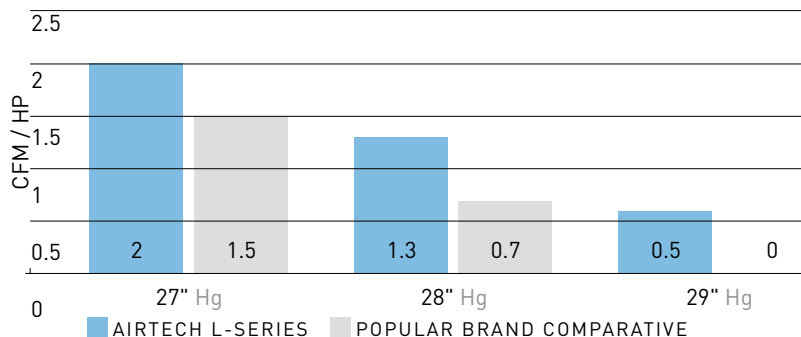

ADVANTAGES

- Very compact.
- Silent.
- Designed to reach up to **29.9"Hg**
- Low maintenance.
- The best pump in the industry, CFM vs HP.

Maximum vacuum level
reachable: **29.9" Hg** with the
L-Series Airtech pump and
28.4" Hg with
other popular brand.

CONVERSION SYSTEM FOR LIQUID RING PUMPS

High vacuum 29" Hg

For liquid ring
close-coupled
pumps

For single or
double liquid
ring pumps

High vacuum 29" Hg

Oil cooling system	1,5 HP à 5 HP	663460
Oil cooling system	7,5 HP à 20 HP	663461

ADVANTAGES

- No more need for water or heating.
- No on-site assembly required.
- Compact and low maintenance.
- Independant oil tank.
- Adapted for low or high vacuum (15" Hg to 29" Hg).

CONVERSION SYSTEM FOR VANE PUMPS

For
DeLaval – Airablo
pump

Oil cooling system	3 HP à 5 HP	663470P
Oil cooling system	7,5 HP à 10 HP	663470

ADVANTAGES

- Eliminates overheating of the DeLaval or Airablo pumps.
- Very compact.
- Allows to pump up to 25" Hg.
- High performance radiator to keep the oil cooler.
- Integrated thermostat optimizes performance.

TWO-STAGE LIQUID RING PUMPS

STAINLESS STEEL TANKS

ROUND BOTTOM TANKS LARGE CAPACITY

**MORE THAN 125 SIZES AVAILABLE
FROM 1 000 to 7 500 gallons.**
Complete listing at www.cdlinc.ca

ADVANTAGES

- Strong high quality welds allow complete sanitizing
- Made of bright 304 stainless steel.

Built-in ladder
at each end.

Elevated 6"
for fast
installation

Prices are available upon request

ROUND BOTTOM TANKS SMALL CAPACITY

Many sizes available: 50 to 1 000 gallons.

Prices are available upon request

Personalize your tank!

TANKS AND ACCESSORIES

TANK LEVEL CONTROL

5' level control
for CDL tanks
73500 \$300.00

6' level control
for CDL tanks
73500-6 \$305.00

ADVANTAGES

- The CDL tank level controls are made entirely of stainless steel.
- In addition, you can very quickly and easily adjust the desired sap level where the pump will start.
- The solidity of CDL controls prevent breakage caused by ice.

MIXER AND BRIX READER

Stainless steel mixer with single height adjustable blade.

Universal mixer for 4', 5', 6' and 7' wide tank

6792034

Note: a cut in length may be required to adjust the height.

Prices are available upon request

ADVANTAGES

- Designed to mix and homogenize the syrup in a large tank to balance the brix level.
- Can also be used to mix a reduced syrup solution in preparation to be re-boiled.
- Very easy to install
- Adapts to various tank sizes

- Allows continuous brix reading in order to homogenize the syrup before putting in barrels.
- Reads 0.0 to 80.0 brix.
- Automatic temperature compensation for accurate reading.
- May be incorporated into the tubing.
- Can read between 5°C and 100°C (41°F-212°F)
- 24-Volt power supply
- Requires a circulation pump

Brix reader

REVERSE OSMOSIS

HOBBY RO (CAPACITY OF 100 GPH - 200 GPH - 300 GPH*)

500 TO 2 000 TAPS

Horizontal model

Vertical model

50% reduction
in boiling time
and energy savings

ADVANTAGES

- Economical and ultra compact.
- Made mostly of stainless steel components.
- All pumps are completely made of stainless steel
- Electrical consumption
120 volts (17 amp.), 240 volts (10 amp.).
- Offers a low pressure and high temperature protection.
- Wheel system allows easy movement with out effort.
- Easy to operate.
- No need to store in a heated room if properly drained.

* 240 volts only

LA FENDEUSE RO (CAPACITY FROM 500 GPH TO 3 600 GPH)

600-gallon Osmosis

The most
efficient
on the market

Best recirculation system

ADVANTAGES

- Entirely made of stainless steel
- The most powerful and performant on the market today.
- Continuous osmosis with low membrane plugging, allowing a concentration of up to 18 brix for a whole day. (depending on the amount of membranes)
- Individual flow reading for each membrane.
- Unique recirculation system, patented, very powerful that increases membrane life with a low maintenance submersible motor.
- Our 5 and 7,5 hp high pressure pumps offer the highest flow on the market.

Concentration capacity adapted
to your needs

20+ REVERSE OSMOSIS

20+ RO (CAPACITY OF 1 900 GPH TO 5 700 GPH)

Increase
your flow or performance by adding a
16" post to your system
Less electrical amperage required

The 20+ reverse osmosis
allows continuous concentration
at over 20 brix
without premature plugging
of the membranes.

In addition, it allows for a very fast individual
rinsing of the membranes to ensure an effi-
cient washing.

100% efficiency for the entire duration of the
sugar season.

16" POST
Capacity over
2400 gallons
per hour

ADVANTAGES

- Eliminates complex plumbing.
- Major energy savings.
- Space saving.
- Easy to operate.
- Can replace more than four 8" posts.
- Maintenance free submersible pump.
- Superior performance with series of reduced posts.

Vertical

Horizontal

Prices are available upon request

20+ REVERSE OSMOSIS

20+ RO (CAPACITY OF 7 600 GPH AT 20 BRUX)

ADVANTAGES

- Designed to fit through a standard size door
- New 10HP turbine designed by CDL allowing high flow at high pressure.

Rear view

56

POST CARTS

Vertical

Horizontal

New 1,5 HP turbine installed on vertical cart or horizontal, preventing the clogging of the membranes at high brix.

Can easily be added to a CDL reverse osmosis previously purchased with or without cart.

ADVANTAGES

- Facilitates post + membrane movement.
- Allows the simultaneous moving of the posts into a room with more space to assemble the membranes.
- Designed to fit inside a standard size door.

ADVANTAGES

- Compact
- Ultra simple connections
- Easy to operate
- Easy access to the membranes

INTELLIGENT REVERSE OSMOSIS MACHINE

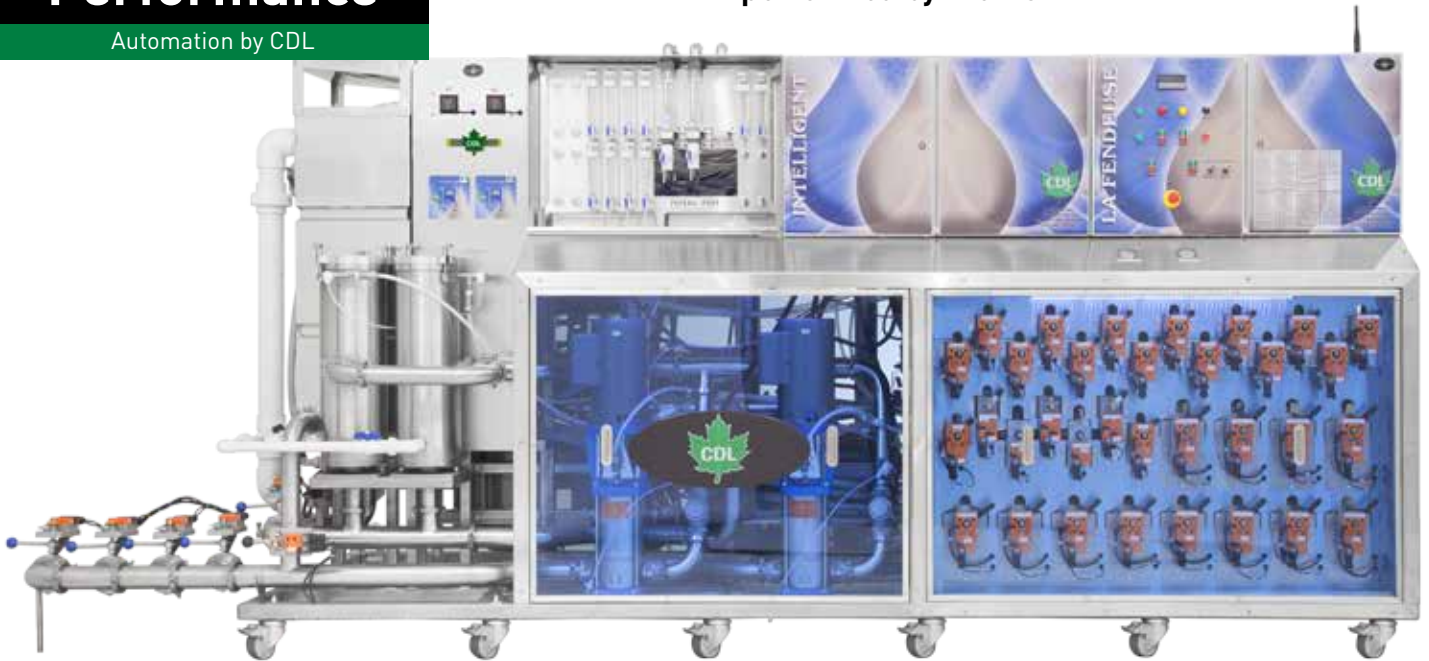

A Revolution in the maple syrup industry

**Quality
Reliability
Performance**

Automation by CDL

INTELLIGENT RO (CAPACITY OF 600 GPH TO 7600 GPH)

The new intelligent RO was developed to **simplify** as much as possible its operation. In addition, it gives you **full remote management** of all the operations that must be performed by the RO.

Prices are available upon request

WHAT IT CAN DO BY REMOTE CONTROL

- Concentrate;
- Rinse the membranes;
- Membrane wash;
- Control sap or permeate feed;
- Continuous brix control;
- Email alerts.

Simple programming allows you to **safely** operate the equipment during your resting hours, work hours or when away from the sugar bush.

What could be better?

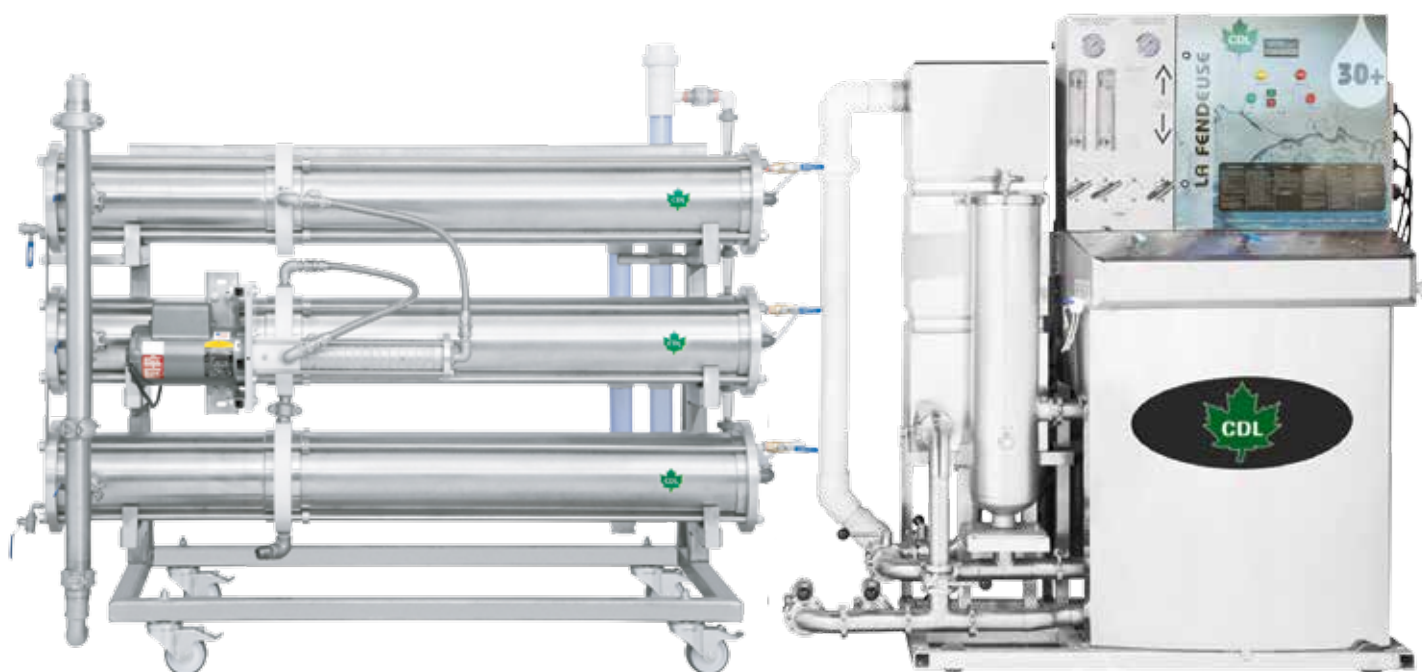

CDL's intelligent RO machine can be operated and supervised by the CDL monitoring system.

30+ REVERSE OSMOSIS

Saves time and energy costs

This CDL Reverse Osmosis series allows you to increase the brix of your concentrate to over 30 efficiently.

3 to 6 posts models available

CAPACITY

from 750 to 1500 GPH

PERFORMANCE

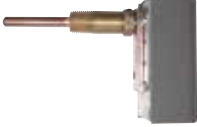

from 375 to 750 GPH
of concentration

REVERSE OSMOSIS ACCESSORIES

CONTINUOUS BRIX READER

Continuous brix sensor with modulating valve

668418

This option allows you to precisely control the brix level at the output of your reverse osmosis. The adjustment is done automatically even if the brix of the sap varies.

Continuous brix reader

668417

ADVANTAGES

- Real time brix reading of concentrate.
- Can be installed on any R.O.
- Allows an accurate reading of your adjustment in real-time.

Prices are available upon request

EVAPORATORS
AND ACCESSORIES

MEASURING INSTRUMENTS
AND CLEANING ACCESSORIES

Working **NEW STANDARDS**

All maple producers are now aware of the California law imposing new standards for maple production. CDL is innovating in developing quality equipment that producers can rely on to **comply with the standards** and eliminate any traces of **lead** in their food products. If lead residue is detected in syrup, it may be caused by the equipment, additives, or maintenance products used during the production process.

As a result, maple producers must remain vigilant regarding the tools and materials used at each stage of processing.

Together, we can exceed the safety standards and promote a professional image of the maple industry. The preservation of our ancestral heritage depends on it.

BEGINNER BOILING KITS

16" x 16"
kit PRFW16 \$515.00

- INCLUDES:**
- 1 R-65 propane burner
 - 1 hose and regulator
 - 1 16" x 16" sugar pan
 - 1 propane burner support
 - 1 3/4" stainless steel nipple
 - 1 3/4" FIPT stainless steel ball valve

16" x 16"
15 taps kit 6600801 \$585.00

- INCLUDES:**
- 1 16" x 16" sugar pan cover
 - 1 16" x 16" sugar pan
 - 1 R-65 propane burner
 - 1 18,5" wooden handle thermometer
 - 1 Orlon filter #8 thick
 - 1 55-70 brix syrup hydrometer
 - 1 8" cup
 - 1 3/4" stainless steel nipple
 - 1 3/4" FIPT stainless steel ball valve

16" x 32" kit PRFW32 \$730.00

- INCLUDES:**
- 2 R-65 propane burners (with fastening kit)
 - 2 hoses and regulators
 - 1 16" x 32" sugar pan
 - 1 16" x 32" propane burner support
 - 1 3/4" stainless steel nipple
 - 1 3/4" FIPT stainless steel ball valve

CLASSIC EVAPORATORS

- Beginner model. Ideal for approximately 50 taps but can be used for up to 100 taps
- Can be used outdoors
- Evaporation of 10 GPH – can make 1 gallon of syrup every 4 hours.
- Overall dimensions - 26" x 65" x 31" high.
- Weight without bricks; 257 lb., with bricks; 778 lb.

1 pan model 69FBEATK1

Prices are available upon request

- INCLUDES:**
- Evaporator base (2'x4').
 - One pan (2'x4').
 - One 3/4" drain-off tap on the side of the pan.
 - 8' of galvanized stack 7" for smokestack.

Not Included:
Cement, bricks and dial thermometer

WOOD EVAPORATORS

HOBBY EVAPORATORS

The CDL Hobby Evaporator is designed for recreational producers who want to enjoy springtime, while boiling small quantities of maple sap to produce a few gallons of maple syrup per season.

18" X 48"
evaporator with
3-way flat pan
1 to 75 taps

18" x 60"
5" flue pan
100 to 200 taps

67001DD
(RIGHT)

18" X 48" INCLUDES:

- Stainless steel furnace with steel grids.
- Stainless steel stack.
- 18" x 48" 304 stainless steel argo welded pan
- Stainless steel draw-off valve.

18" X 60" INCLUDES:

- 18" x 42" flue pan
- 18" x 18" syrup pan
- Float box with rear control level.
- Complete smoke stack.

AVAILABLE OPTION:

- Pre-heating pan (code 67112WPARE).

Prices are available upon request

SPECIAL HOBBY EVAPORATORS

The CDL special hobby evaporator was designed for recreational producers who wish to have a quality evaporator at a very affordable price. This evaporator will give you the sensation, the comfort and the pleasure of boiling maple sap comparable to that of big producers.

20" X 66"
100 to 250 taps

6700202WG
(LEFT)

20" X 66"
100 to 250 taps

6700202WD
(RIGHT)

INCLUDES:

- 32" high furnace with cast iron grates and 2 doors for wood loading.
- 1 flue pan with 7" argon welded flues
- 1 reversible syrup pan welded with argon.
- Float boxes,
- Rear and front level control.
- High quality cast iron.
- 12' long complete chimney (including the stack).
- Rope operated stack cover.
- Stainless steel connections, drain valve and draw-off valve.

Prices are available upon request

PROFESSIONNAL EVAPORATORS

The Professional evaporator is a high quality wood evaporator for owners of small sugar bushes. It is designed and manufactured to provide efficient boiling and easy/stable syrup finishing. Its performance in relation to its size will surprise you.

24" X 72"
150 to 450 taps

INCLUDES:

- 32" high furnace with cast iron grates and 2 doors for wood loading.
- 1 flue pan with 7" argon welded flues
- 1 reversible argon welded finishing pan.
- Front and rear float boxes.
- High quality cast iron.
- Complete 12' long chimney (including the stack).
- Rope operated stack cover.
- Superior sized combustion chamber for added efficiency (45% bigger).
- Stainless steel connections, drain valve and draw-off valve.
- Water level on flue pan..

Prices are available upon request

THE TRADITIONAL EVAPORATORS

AVAILABLE IN SIZES: 2½' X 8' TO 5' X 16'

The Traditional CDL evaporator is designed for owners of medium and large sugar bushes wishing to keep the tradition alive of boiling the syrup with firewood while being effective and efficient. This evaporator will provide an incomparable boiling stability.

Its robust construction will allow many generations to experience the pleasure of boiling maple syrup.

INCLUDES:

- 32" high furnace with cast iron grates and 2 doors for wood loading.
- 1 flue pan with 7" argon welded flues.
- 2 to 3 argon welded syrup pans for finishing (depending on model)
- Front and rear float boxes.
- Stainless steel connections, drain valve and draw-off valve.
- Complete chimney (twice the length of the evaporator) including the stack.
- 1 rope operated stack cover.
- Water level on flue pan.

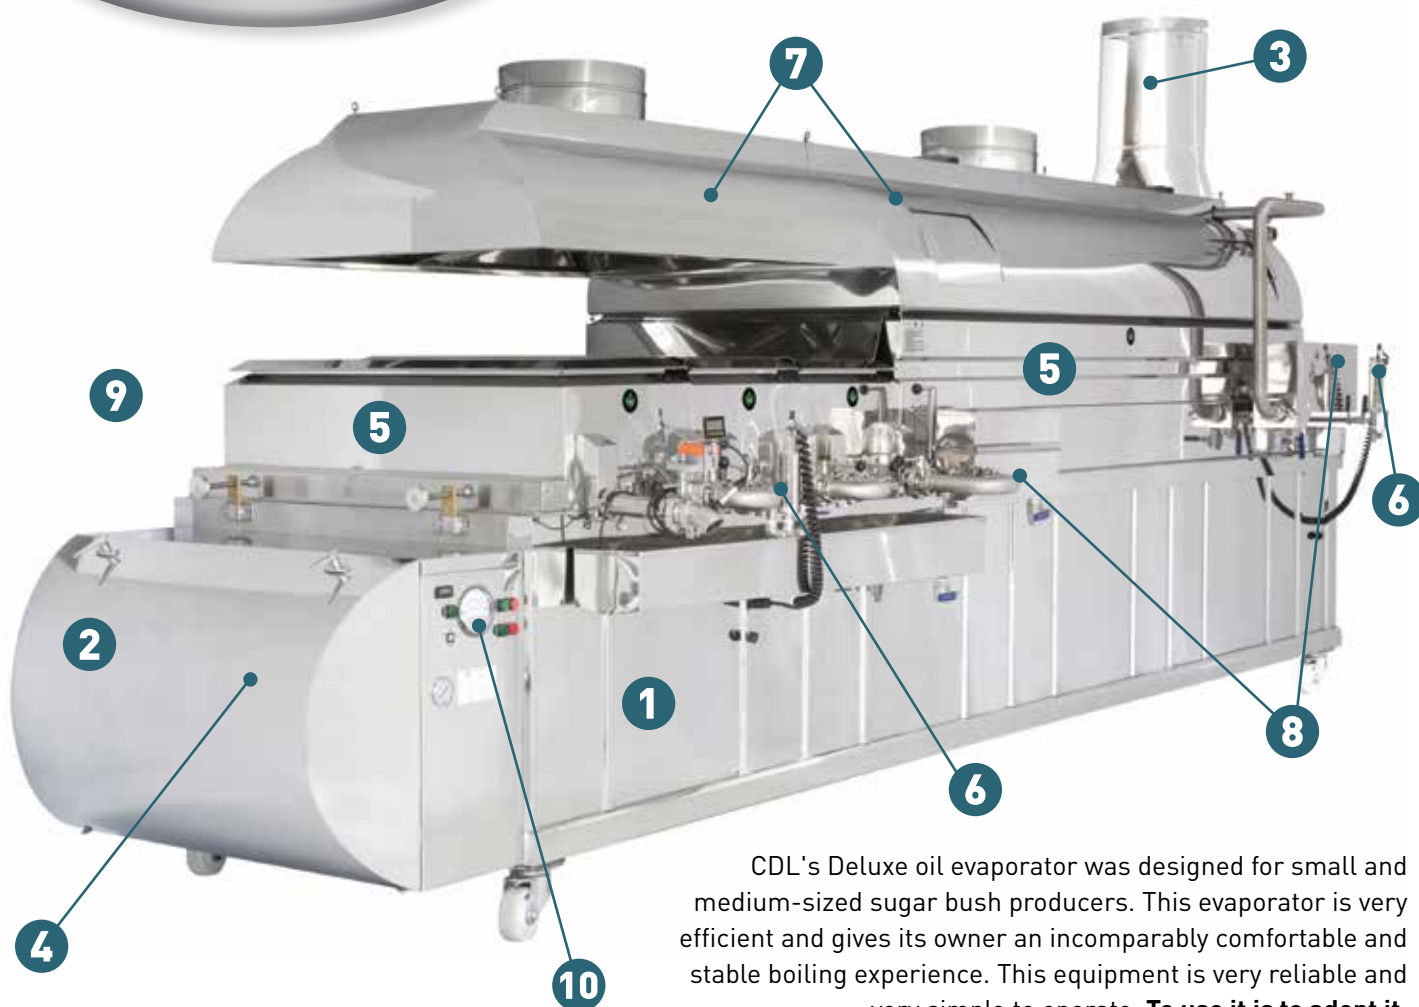

Prices are available upon request

PHOTO CREDIT
MARCEL VIEN SUGAR BUSH
SAINTE-CLAIRE, QC

Master

CDL's Deluxe oil evaporator was designed for small and medium-sized sugar bush producers. This evaporator is very efficient and gives its owner an incomparably comfortable and stable boiling experience. This equipment is very reliable and very simple to operate. **To use it is to adopt it.**

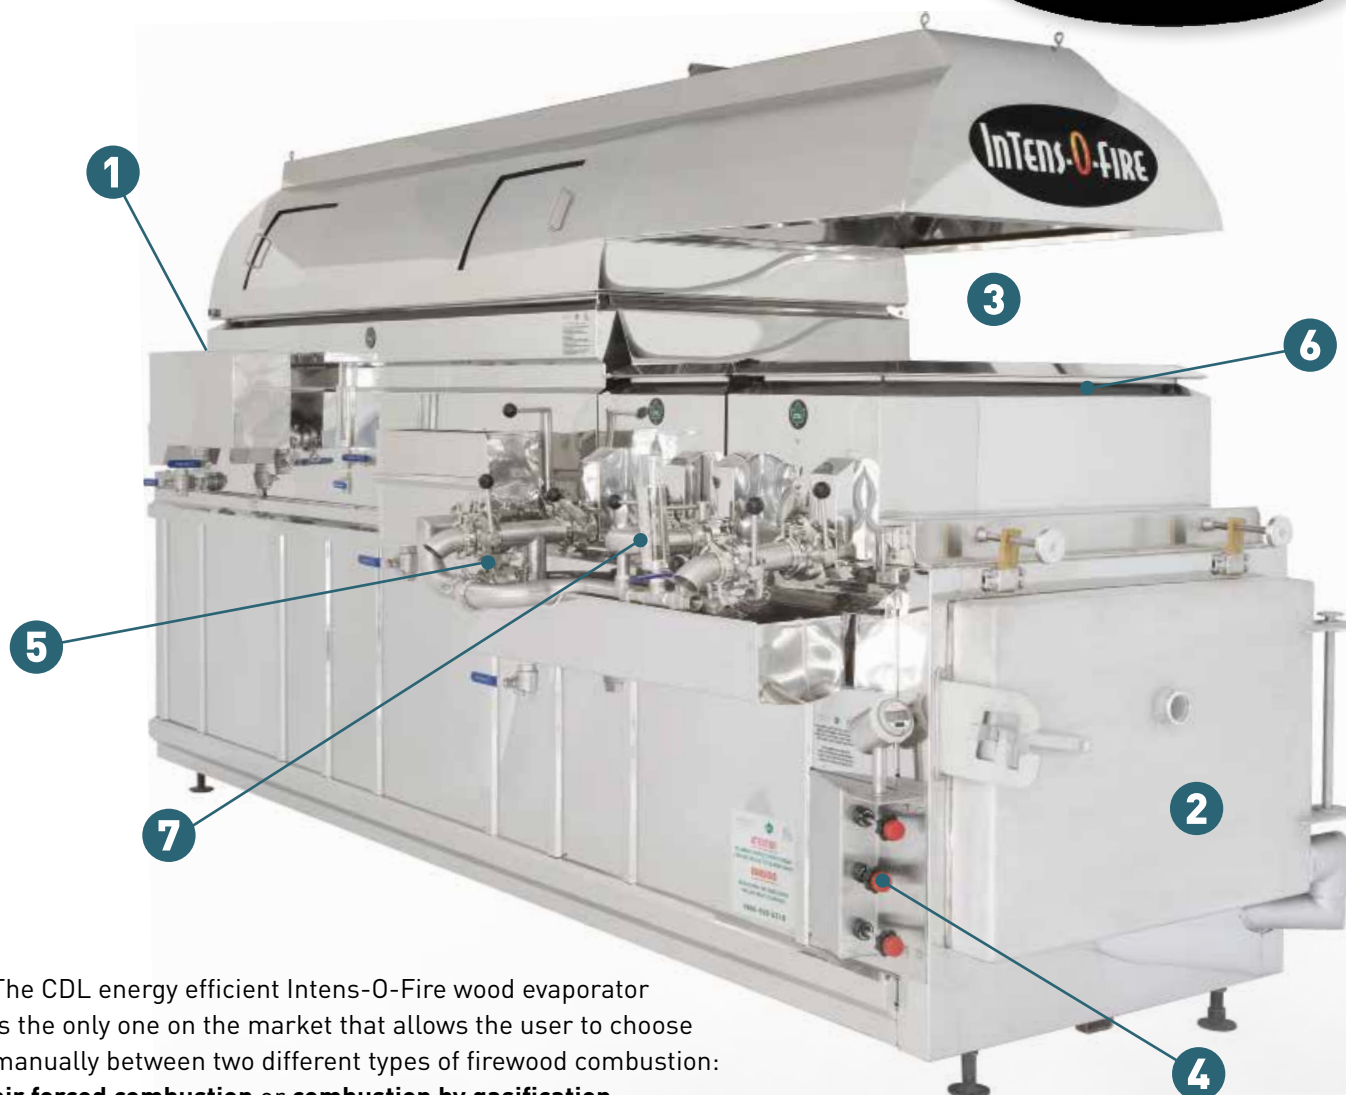

- 1 Oil furnace
- 2 Carlin or Beckett burner
- 3 Complete stack with covers and roof jacks
- 4 Insulated burner cover.
- 5 Flue pan and syrup pans
- 6 Water level
- 7 Front and rear hoods
- 8 Front and rear float boxes
- 9 Adjustment and start-up by a CDL specialist
- 10 Control panel

MAIN FEATURES

FUEL	OIL, NATURAL GAS OR PROPANE
SIZES	Available in sizes : 2½' X 8' to 6' X 18'
IDEAL FOR	Perfect for small and medium producers. Hassle-free boiling stability and easy operation.
AVAILABLE OPTIONS	Automatic draw-off valve. Syrup drip tray. Hood pre-heater. Permeate pre-filter. Steam pan. Protect-O Level controller protection

Interchangeable and reversable sap inlet and outlet

Prices are available upon request.

The CDL energy efficient Intens-O-Fire wood evaporator is the only one on the market that allows the user to choose manually between two different types of firewood combustion: **air forced combustion** or **combustion by gasification**.

- 1 Meets the environmental requirements of greenhouse gas emissions
- 2 Load every 20 to 40 minutes depending on combustion type
- 3 Winner of water gallons evaporated per hour - Maplerama 2011
- 4 Front and rear air distribution control for the combustion chamber and grates
- 5 Flow inverter (optional)
- 6 Syrup pan
- 7 Water level

MAIN FEATURES

FUEL	WOOD (soft or hard)
SIZES	Available sizes : 2½' X 8' to 6' X 18'
CONSUMPTION	Wood consumption 40% less than a conventional evaporator
IDEAL FOR	Balance between performance and boiling stability

Interchangeable and reversible sap inlet and outlet

Prices available upon request.

The CDL Chinook Evaporator has an **automated air adjustment system** that allows a highly efficient, non-polluting combustion, even if the operator burns poor quality firewood with variable humidity.

- 1** Clean combustion, very little polluting emissions
- 2** Complete temperature control in the chimney (maximum 650°F).
- 3** Time between wood loading: 30 to 60 minutes, depending on quantity and wood quality
- 4** Very efficient, quick start-up and ignition
- 5** Boiling stability comparable to pellet and oil evaporators
- 6** Very quiet
- 7** Combustion creosote free
- 8** Very safe
- 9** Stable syrup draw-off
- 10** Syrup pan
- 11** Heat exchanger
- 12** Water level

MAIN FEATURES

FUEL	WOOD (soft or hard)
SIZES	Available sizes : 2½' X 8' to 6' X 18'
CONSUMPTION	0.24 medium quality wood cord (24") per barrel (32 G) of syrup (15 brix)
IDEAL FOR	Get up to 85% energy efficiency while benefiting from automation and ease of use.

Interchangeable and reversable sap inlet and outlet

Prices available upon request.

WOOD, CHIP OR PELLET EVAPORATORS

Wood model shown

The CDL Master Evaporator is the only evaporator on the market evaporating over **5.1 Imp. gal. / ft²** or **6 U.S. gal. /ft²** of pan.

MAIN FEATURES

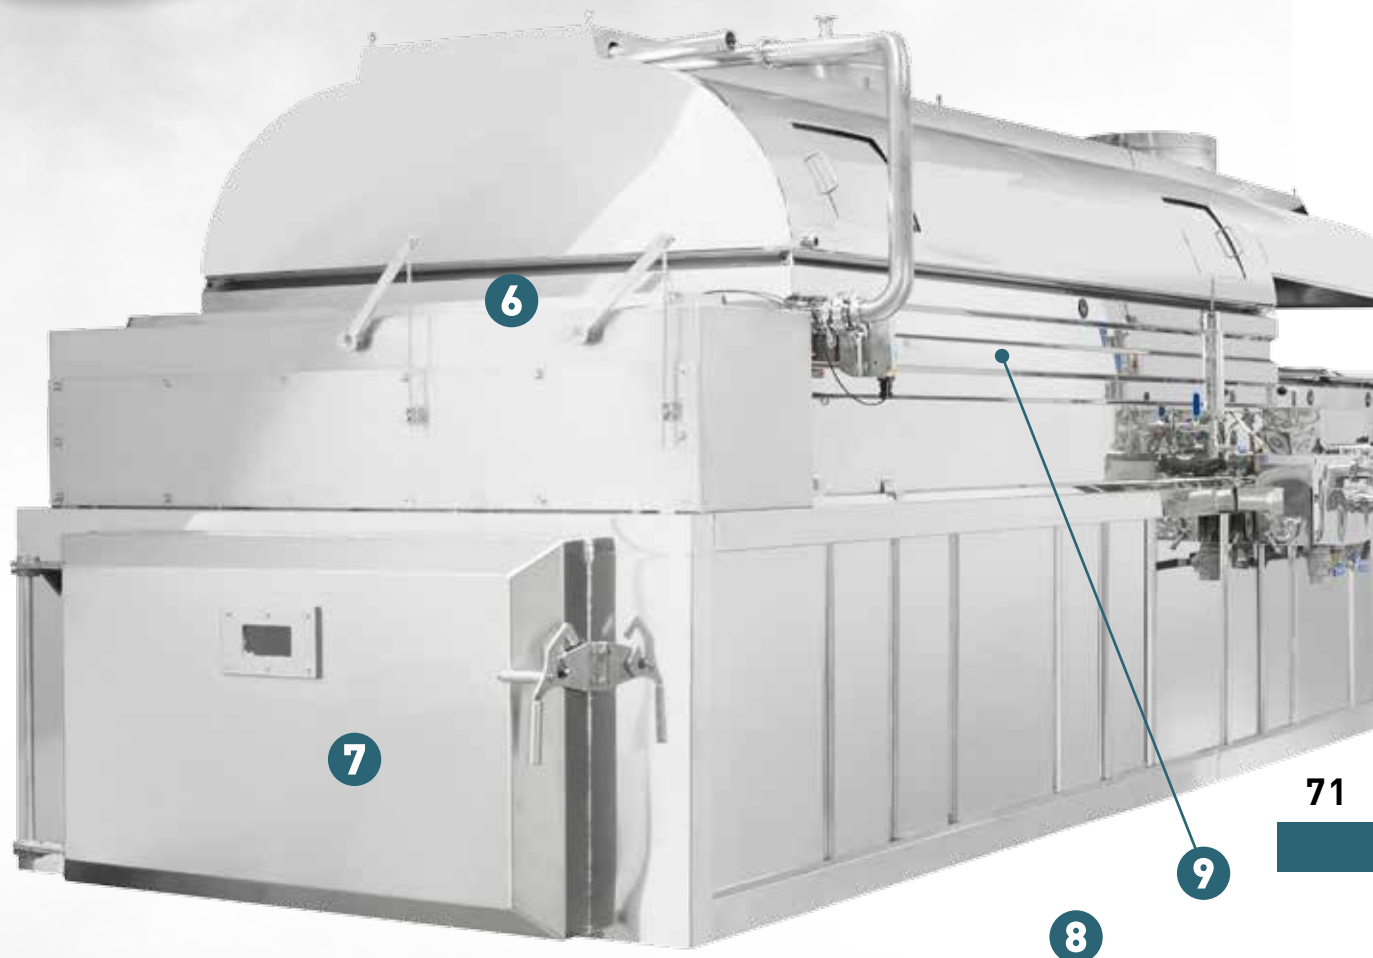

FUEL	WOOD, CHIP OR PELLETS
SIZES	Wood pellet Master available in sizes : from 3' X 11' to 7' X 18' Wood Master available in sizes : from 4' X 15' to 6' X 18'
EFFICIENCY	Ability to produce up to 3½ barrels/hour (18° brix), 6 barrels/hour (30° brix) with the 7' x 18' pellet model
IDEAL FOR	Performance and efficiency in high brix. Unmatched boiling flexibility (from 2 to 35 brix)

Interchangeable and reversable sap inlet and outlet

Prices available upon request.

WOOD, CHIP OR PELLET EVAPORATORS

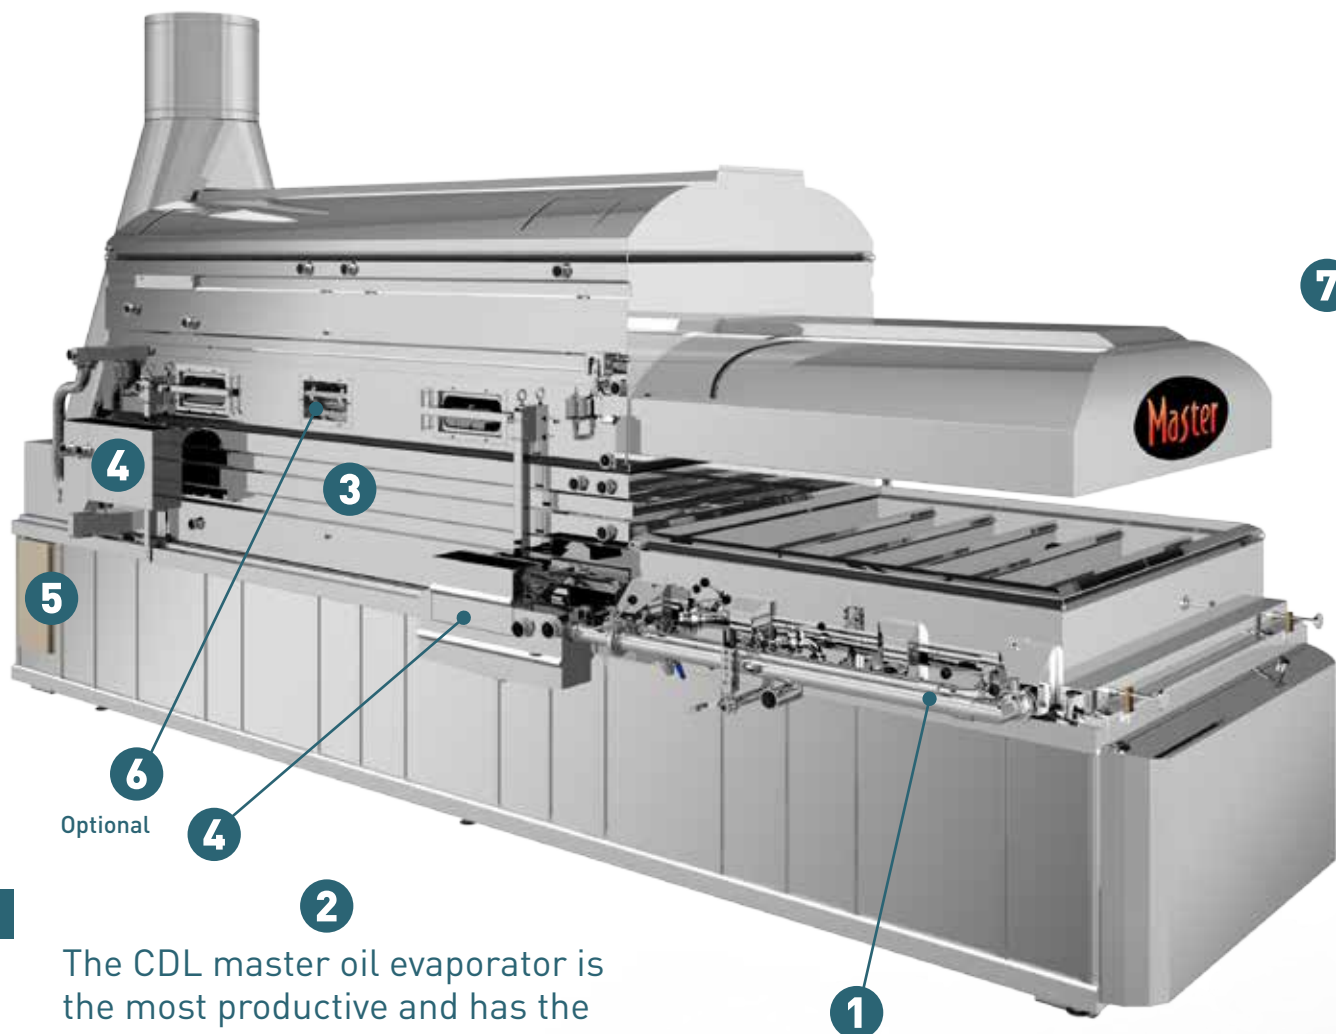

Wood model shown

- 1 Hood preheater
- 2 Flow inverter in the flue pan
- 3 No mechanisms near the syrup pans, so no obstruction at the front for the operation of the evaporator.
- 4 Drip tray (optional)
- 5 Multi-channel syrup pan. Pan change in 5 minutes without stopping the fire.
- 6 No sparks
- 7 Rear loading of fuel to eliminate dirt caused by wood in the boiler room.
- 8 Ease of use
- 9 Two-pass flue pan

Automated rear
loading of fuel
(wood, wood pellets
and chips)

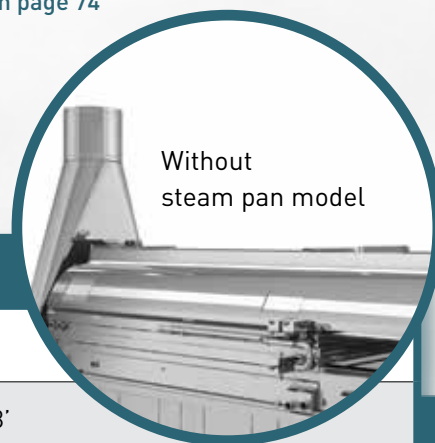

OIL MASTER EVAPORATOR

The CDL master oil evaporator is the most productive and has the **best energy efficiency on the market.**

- 1 Front and rear flow reverser included
- 2 No mechanisms near the syrup pans, so no obstruction at the front for the operation of the evaporator.
- 3 Two-pass flue pan
- 4 New decanter box to reduce niter in the syrup pans. Included with all Master evaporators
- 5 Magnehelic oil pressure gauge
- 6 Steam pan (optional)
- 7 Available options and accessories on page 74

MAIN FEATURE	
COMBUSTIBLE	OIL
SIZES	3' X 11' to 7' X 18'
CONSUMPTION	0,195 gallons of oil per gallon of syrup
IDEAL FOR	Better energy and labor costs per barrel on the market

Interchangeable and reversable sap inlet and outlet

Prices available upon request.

Master + 30+^{RO}

Performance and operating costs to an unprecedented level in the industry.

ADVANTAGES

- **Best energy + labor costs** per barrel on the market
- Decrease energy costs by at least 40%
- Complete range available allowing a production from **2 to 7.5 barrels per hour**
- Available for wood, pellets and oil
- Labor cost for boiling is reduced from 30 to 50%
- **Quick Return on Investment**
- Preserve the flavor and **authenticity of the syrup**
- **Decrease boiling time** significantly
- **Complete automated purification system** available

EVAPORATOR ACCESSORIES

STEAM PAN

- > This option can be installed all types of evaporators (wood, pellet, oil). Many standard sizes available.
- > The use of the steam pan causes a significant reduction in energy consumption by reusing the steam produced by the flue pan. This reduction in energy consumption can be up to 75% depending on the brix at the input of the pan.
- > In addition, adding this option to the evaporator increases the evaporation capacity by up to 75% without additional fuel consumption.

FRONT AND REAR
FLUE PAN WASHER
BY CDL

A must for anyone looking to improve and simplify their operation.

DELUXE

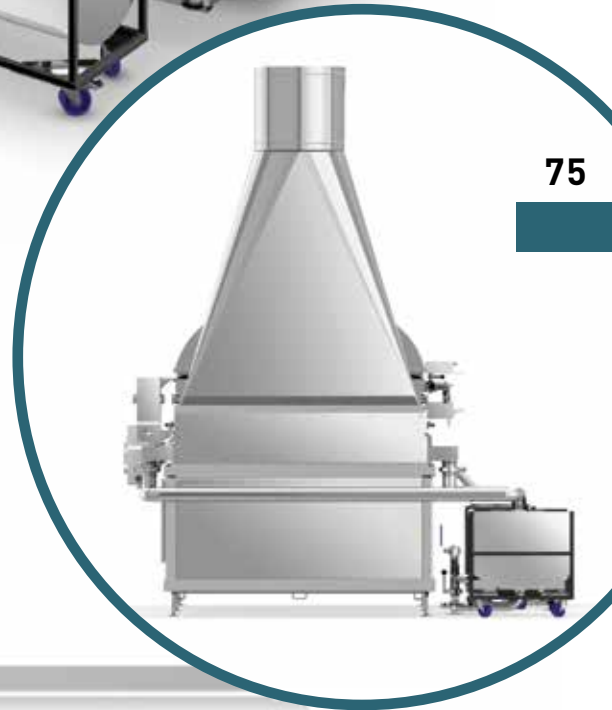

InTens-O-FIRE

Chinook

Master

Available as an option for Deluxe, Intense-O-Fire, Chinook and Master evaporators models, the flue pan washer by CDL is completely automated and sequential.

With its complete non-contact wash and continuous washing circuit, it eliminates stubborn stains and greatly reduces the daily workload.

EVAPORATOR ACCESSORIES

DRAW-OFF VALVES

NEW

Modulating draw-off valve multiple control 2"	66783	Price upon request
Modulating draw-off valve multiple control 2 1/2"	66784	Price upon request

Clips, silicone gasket and spout not included

B

A	Automatic draw-off valve 1 1/2"	66771	\$995,00
	Modulating draw-off valve 1 1/2"	66781	\$1 195,00

	Modulating draw-off valve 2 1/2"	66782	\$1 725,00

Clips, silicone gasket and spout not included

ADVANTAGES OF THE MODULATING DRAW-OFF VALVE

- Allows continuous output of maple syrup.
- Eliminates the return effect of the syrup into the pans.
- Eliminates large volume draw-offs.
- Improves the constancy of the brix level.
- Facilitates the filtration of maple syrup.

FILTER PRESSES
AND ACCESSORIES

BARRELS, PROCESSING
EQUIPMENT AND ACCESSORIES

Our good **MAPLE SYRUP**

Maple syrup isn't a refined sugar. It's never processed so it still has all the wealth of minerals and antioxidants nature intended. Did you know that just 1/4 cup has 100% of your recommended daily allowance of manganese along with 37% of the riboflavin, 18% of the zinc, 7% of the magnesium, and 5% of the calcium and potassium your body needs.

Not only that, 60 ml gives you the same antioxidant value as a banana. Maple syrup has a low glycemic index, too. That means it won't drive up your blood sugar like corn syrup, refined sugar, or brown rice syrup.

Maple syrup has 1/3 fewer calories than you find in the same amount of sugar. And there are no chemicals or preservatives, making it a high-quality natural food you can enjoy worry-free.

So indulge yourself and pour it on
—and not just for pancakes!

FILTER PRESSES

FILTER PRESSES WITHOUT PUMP AND CART

Assembled with all pump models shown in the section below.

7" Press

10" Press

20" press 3 holes
Filtration capacity: 15 to 50 barrels

- Pressure Gauges

Self-cleaning 10" press
7 hollow plates, 6 full plates

6660010A

NOT INCLUDED:

- Pump option
- Feed and drainage (washing water) plumbing

Caution

Requires the use of an air compressor and a good supply of water or permeate.

ADVANTAGES

- Technology that revolutionizes the cleaning operation of syrup press plates.
- De-sugaring and washing the plates without any syrup loss.
- Ultra fast and very efficient washing without removing the plates.
- Takes only **5 minutes** to wash the plates and repeat the filtration process
- Reduces the cost of using filter papers by **90%**.

Prices are available upon request

DRAW-OFF TANK WITH PRESS

Can be assembled with all pump models shown on the previous page. Mounting available on single tank (35 gallons) or double tank (2 x 35 gallons).

Multifunctional and very compact.

FILTER PRESSES

WESFAB FILTER PRESSES

We are very proud to now be the exclusive supplier of these high-performance filter presses designed and manufactured in the United States. These will now be distributed throughout North America through our distribution network.

BOOKS

Long live **MAPLE!**

The golden liquid is growing in popularity each year. To date, maple syrup producers export **their products** to more than 50 countries worldwide. Recently, the Japanese discovered the benefits of maple syrup. India and North Africa may be the next to join the list of importers.

Maple syrup is a product that appeals to consumers because of its flavor and numerous culinary possibilities. Marketing is being refined to satisfy all consumers' tastes. Top chefs all around the globe are always innovating, steering maple syrup away from its folk origins. Used in both sweet and savory recipes, its **authentic flavor** is a natural source of sugar.

To paraphrase Delia Smith, British expert in the art of cooking, smooth textured with a touch of **caramel** doesn't begin to describe it. Maple's unique flavor is so distinct that it's like no other syrup in the world—hence its international reputation. At breakfast, lunch, or dinner, its many forms will delight every palate.

A French Canadian grandmother remembers her first sugar party, music, dance and lots of food. For children from 4 to 8 years old.

SUGOSC \$10.95

Get in TOUCH

The CDL experience translates into personalized service at each stage of your maple water processing. Just like a family, our maple experts make suggestions and guide you so that the quality of your harvest meets your expectations and those of your consumers here and abroad.

At CDL, we believe service and support are just as important as the quality of our products. Know that you can count on us, regardless of where your sugar bush is. Our goal is to always serve you better. From Quebec and Ontario to the Maritimes and the northeastern United States, our representatives on the road and at our corporate stores use all their expertise to offer you superior equipment and advice. Visit our website at cdlusa.com and get in touch!
