

MAXFLOW FITTINGS

The new line of **5/16" Maxflow fittings** was specifically designed and developed for maple producers wanting to operate over 25 in.-hg (high vacuum). These fittings enable a perfect seal with a vacuum level **beyond 25 in.-hg** and offers the following advantages:

- No parting lines on the first barb.
- Precision moulding.
- Eliminates micro-leaks caused by molding lines.
- Better grip on the tubing.

5/16" MAXFLOW SPOUTS

5/16" black spout with barbs
66090516 \$0.24

We recommend the use of a 19/64" drill bit for tapping.

5/16" white spout with barbs
66090517 \$0.24

We recommend the use of a 19/64" drill bit for tapping.

5/16" white spout without barbs
66090520 \$0.24

We recommend the use of a 19/64" drill bit for tapping.

5/16" blue spout with barbs
66090518 \$0.24

We recommend the use of a 19/64" drill bit for tapping.

17/64" MAXFLOW SPOUTS

17/64" black spout with barbs
66090514 \$0.24

We recommend the use of a 1/4" drill bit for tapping.

17/64" white spout with barbs
66090515 \$0.24

We recommend the use of a 1/4" drill bit for tapping.

17/64" white spout without barbs
66090512 \$0.24

We recommend the use of a 1/4" drill bit for tapping.

17/64" blue spout with barbs
66090513 \$0.24

We recommend the use of a 1/4" drill bit for tapping.

ACCORDING TO A STUDY FROM THE ACER CENTER

When comparing sap yield, the white Maxflow spout gave a **sap volume 7% higher** than the black Maxflow spout.

CONCLUSION OF THE STUDY

In the studied sugar bush, white spouts gave a higher volume of sap compared to the black spouts.

This increase, recorded in the last part of the season, would be related to the color of the spout and its thermal absorption properties.

White spouts, 7% better performance

3/16" FITTINGS AND TUBING

3/16" FITTINGS

 3/16" clear **Signature** spout 66045316 \$0.19
We recommend the use of a 5/16" drill bit for tapping

 3/16" white spout with barbs 66090316 \$0.25
MAXFLOW
We recommend the use of a 19/64" drill bit for tapping

 3/16" end of line hook 66279357 \$0.20

 3/16" flat hook connector 66303357 \$0.21

 5/16" - 3/16" flat hook connector 66303356 \$0.21

 3/16" T with pin 66030360 \$0.30

 3/16" end of line T with pin 66030361 \$0.34

 3/16" - 3/16" - 5/16" health T drop line 66030355 \$0.30

 3/16" health T 66030357 \$0.30

MAXSEAL MULTI-FITTINGS / FIXED HEAD

Screw kit not included

	3/4"		66096395	\$2.20
	1"		66097395	\$2.35
	Maxseal single gasket		66091C	\$0.35

 Screw Kit 66099099 \$0.28

3/16" gravity sap tubing setup
Ideal for maple producers using a gravity tubing system.

Ideal for sugar bushes without electricity.

Ideal for maple producers who do not want to use a vacuum system.

- > Increase your production.
- > Create a vacuum effect without a pump in the 3/16" tubing.
- > Better sap quality than with standard gravity systems.
- > As simple as using buckets, but with less work and better performance.

Have a better tracking by using different colored spouts during tapping season.

SPOUTS

The CDL Way. The power of expertise. / 2018 Catalog

Signature SPOUTS

We recommend the use of the 5/16" drill bit for tapping with 5/16" Signature Spout.
We recommend the use of the 1/4" drill bit for tapping with 1/4" Signature Spout.

	Blue thin wall Signature spout	5/16"	66045063	\$0.19		Light blue thin wall Signature spout	5/16"	66045068	\$0.19
