

AIRTIGHT WOOD EVAPORATORS

Showing all options available

Standard model

The new **airtight high performance Venturi** evaporators has a unique **artificial draft system** allowing the **intake of primary air at high pressure by suction**. By simply and safely increasing the evaporation performance of the evaporator, the Venturi Performance system developed by CDL.

MAIN FEATURES

| | |
|-------------------------|----------------------------------|
| FUEL | WOOD |
| SIZES | 12 models from 2'x4' to 4'x15' |
| EFFICIENCY | Up to 40% more output |
| AVAILABLE OPTION | Wide choice of options available |

- High evaporation performance at an affordable price
- Longer lifetime
- Uniform boiling in the front, warmer in the back
- No need to preheat smokestack
- Full boiling performance after 10 minutes
- Perfect functioning even in low pressure (bad winds)
- Fully reversible
- Fewer bricks needed
- Easy to operate and the risk of errors are very limited
- No risks of flame flashbacks
- Boiling intensity can be adjusted easily

Interchangeable and reversable sap inlet and outlet
